

Excellence in CLEAN ENERGY

Project Development

Proven Leadership. Decades of Experience. Discover why Redeux is the trusted partner for high-quality, utility-scale, clean energy project development.

The Redeux Difference

Redeux is a leading utility-scale solar and storage development company. We are experts in transforming greenfield, brownfield and industrial lands into renewable power projects that create new revenue streams, meet ESG goals, and support local economies and workforces.

Highly Qualified Team

Redeux is led by veterans of the largest Independent Power Producers (IPP), with decades of collective experience in project development, finance, construction and operations.

Development Focused

Redeux specializes in early- and mid-stage project development, with the capability to navigate the challenges of land acquisition, project engineering, interconnection, permitting and community engagement.

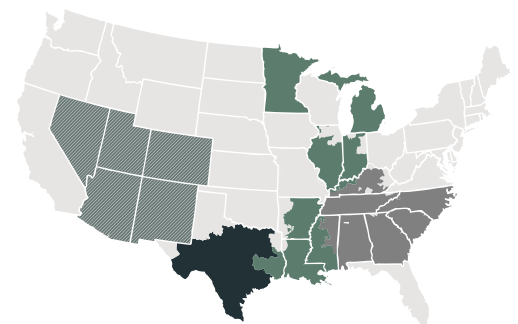

Owner's Mindset

Redeux develops projects with a blue-chip asset-owner's mindset — ensuring economic and financeable investment opportunities for the IPPs and infrastructure funds that build, own and operate.

Well Capitalized

Redeux is backed by Cathexis Holdings, a multi-billion-dollar diversified equity sponsor based in Houston, TX.

Current Target Markets

Our team is focusing on markets where we expect continued and new demand for clean energy projects that will be operational between 2025 and 2030.

ERCOT

SERC

MISO

WECC

Continuing to Grow & Scale

5.7 GW+ of projects
in KY, GA, AL, MS, LA, CO,
TX, AR, UT, TN, SC, and NC

**Pipeline of large hybrid solar
and storage projects spanning
12 states, totaling over 5.7 GW
of capacity**

Redeux is on pace to significantly
increase pipeline capacity and
geographic footprint by EOY 2024.

**1 GW+
PORTFOLIO SALE**

**Advanced stage of Redeux's
first sales process for 11-site
portfolio in MISO and SERC**

**39,000+ ACRES
SITE CONTROL**

**Systemically executing land
acquisition campaigns across
nearly 20 targeted states in
2024**

Promoting Economic Development

We work with landowners to enhance their property value with clean energy solutions that can be built alongside existing resource extraction, ranching, farming, timber and other operations.

Sustainable, Low-impact Land Usage

Our projects increase the land's value with minimal environmental impact. We also pursue opportunities for brownfield re-development.

Local Knowledge

We understand the local area and the people we work with.

Community Support

Our projects create local construction and operations jobs while increasing tax revenue for the communities we serve. Plus, they can attract technology and industrial development to the area.

Let's Work Together

Whether you are an IPP seeking a high-quality development pipeline or a local developer looking for capital and expertise, we're excited to partner with you.

Let's talk.
