

# Excellence in CLEAN ENERGY Project Development

Proven Leadership. Decades of Experience. Discover why Redeux is the trusted partner for high-quality, utility-scale, clean energy project development.

## The Redeux Difference

Redeux is a leading utility-scale solar and storage development company. We are experts in transforming greenfield, brownfield and industrial lands into renewable power projects that create new revenue streams, meet ESG goals, and support local economies and workforces.

### Highly Qualified and Capable Team

Redeux is led by veterans of the largest Independent Power Producers (IPP), with decades of collective experience in project development, finance, construction and operations.

### Development Focused

Redeux specializes in early- and mid-stage project development, with the capability to navigate the challenges of land acquisition, project engineering, interconnection, permitting and community engagement.

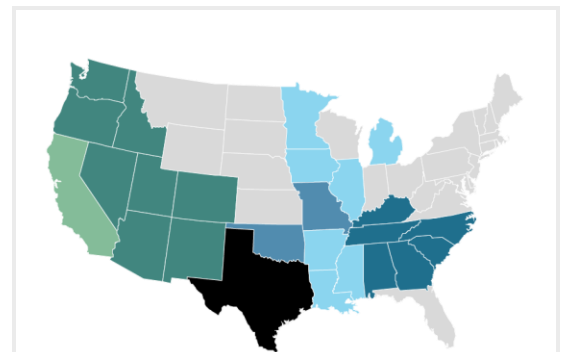

### Owner's Mindset

Redeux develops projects with a blue-chip asset-owner's mindset – ensuring economic and financeable investment opportunities for the IPPs and infrastructure funds that build, own and operate.

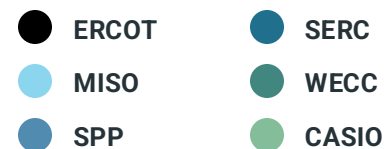

### Well Capitalized

Redeux is backed by Cathexis Holdings, a multi-billion-dollar diversified equity sponsor based in Houston, TX.

## Current Target Markets

Our team is focusing on markets where we expect continued and new demand for clean energy projects that will be operational between 2026 and 2030.

## Continuing to Grow & Scale

### 8 GW+ PIPELINE

Diversified utility-scale pipeline of hybrid solar and standalone storage projects spanning 12 states. Redeux is on track to add 5 GW of new project capacity in 2025.

### CLOSED PORTFOLIO SALES

**725 MWdc** sold to two Tier 1 IPPs in 2024.  
**700 MWdc** expected to close in Q1 & Q2 2025.  
**4+ GW** PV and Storage coming to market in 2025.

### 60,000 + ACRES SITE CONTROL

Systematically executing land acquisition campaigns across 20 targeted states in 2025.

## Promoting Economic Development

We work with landowners to enhance their property value with clean energy solutions that can be built alongside existing resource extraction, ranching, farming, timber and other operations.

**Sustainable, Low-impact Land Usage**  
 Our projects increase the land's value with minimal environmental impact. We also pursue opportunities for mine land re-development.

**Local Knowledge**  
 We understand the local area and the people we work with.

**Community Support**  
 Our projects create local construction and operations jobs while increasing tax revenue for the communities we serve. Plus, they can attract technology and industrial development to the area.

## Partner Testimonials

"Redeux Energy developed turnkey assets that will be competitive additions to our growing MISO pipeline," said Andrew Vietze, Senior Vice President for Mergers and Acquisitions at **Pine Gate Renewables**. "The Redeux and Marathon teams were a pleasure to work with and we look forward to future business opportunities with both Partners."

"Scout is excited to make this excellent addition to our growing development pipeline," said Michael Rucker, Chief Executive Officer and Founder at **Scout Clean Energy**. "Redeux Energy has thoughtfully developed this site to date, and we are looking forward to transforming this great foundation into a high-performing solar and battery storage project that will bring significant benefits to Ohio County."

## Let's Work Together

Whether you are an IPP seeking a high-quality development pipeline or a local developer looking for capital and expertise, we're excited to partner with you.
